

## Mockup Review Notes

Creative Director: Mimi Shang

Designer: Christina Lu

- Overall, the images are nice!
- Change the tea title typeface to the typeface shown on the navigation bar.
- Navigation bar can be illegible at times, make the selected selection a different color other than green or white
- The green textboxes can be inconsistent with the images, maybe readjust shades according to the different images
  - Keep the green boxes in the same place instead of different places
  - Have the same margins
  - Scroll text in box
- Play with different positions of the title text

- Nice aesthetic ☺
- Make the history a broad overview of his creation and history, and place the game information in another section
- For the history, have the story of how he was created, then show images of his change in appearance from 1985(?) to 2017
- Sources tab needed
